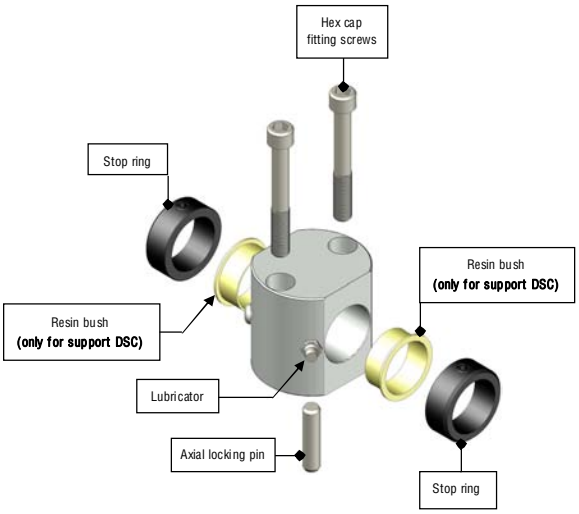
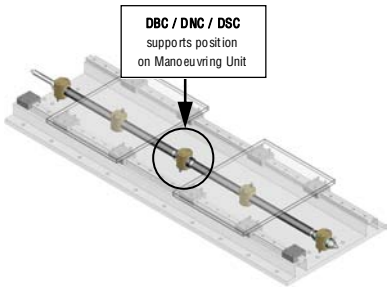
Assembled DBC support

Assembled DNC support

Assembled DSC support

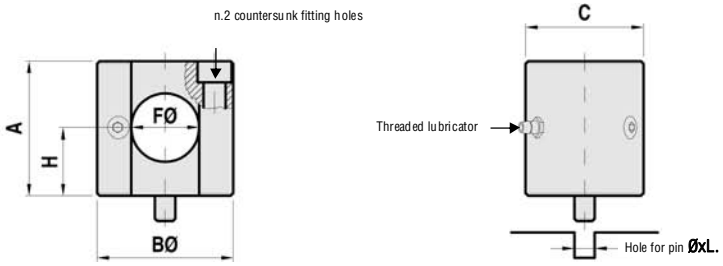
DBC/DNC/DSC supports - exploded diagram





> **The DBC supports used with stainless steel trapezoidal screws and the DNC supports used with anodized aluminium alloy or stainless steel trapezoidal screws can be supplied with stainless components upon request.**

> Complete diagrams for fitting to the machine are shown on page 65/R



> **C = Nett size of the support excluding accessories like ABA, rings, etc.**

> **Approximate weight with accessories and fitting bolts.**

> The above supports are shown in the **Compact Simple Bidirectional** diagrams (see previous pages) for which it is possible to calculate the total weight by adding them to the weight of the TR screw using the table on page 65/D.

> **To comply with safety regulations, the use of the supplied pin and the fitting nuts and bolts is obligatory, as is ensuring tapping of the thread on materials of adequate thickness and resistance, see page 65/D.**
